2. PURPOSE / FOREWORD

Dear supplier,

With the actual trend and direction in which world is moving forward, global goal has raised in achieving sustainable operation and future of humankind. For this goal, the automotive industry is constantly evolving and implementing environmental, ethical and sustainable solutions with focus for continual improvement on environmental and social factors such as ethics, labor and human rights and sustainability within the supply chain. in addition to the technological direction. That include standardized sustainability reporting and management.

The SUNGWO HITECH s.r.o. company identifies with and follow these initiatives and we commit to implement such values in our supply chain as well.

For this purpose, we established this Supplier code of conduct document which serves as a guidance and requirements list.

Failure or no will to comply with this document requirements will results in limitations or elimination in future biddings and selection of your company on provision of parts / services as supplier.

.....
Martin Schuster

HR Manager

3. SCOPE OF APPLICATION

The requirements raised by this document are determined to be mandatory applied and followed by selected suppliers based on selection criteria, including submission of self-assessment.

In case of selection of the supplier, responsible personnel from the SUNGWOO HITECH s.r.o. will notify contact personnel from the selected company and provide this document with the requirement of provision of self-assessment result within 14 days after reception.

Generally, these criteria and this requirements applies to larger suppliers.

4. CODE OF ETHICS

4.1. TRANSPARENCY AND ANTI-CORRUPTION

1. The executives and employees of suppliers shall comply with the highest standards of integrity of the country where they conduct business operations.
2. The executives and employees of suppliers shall not engage in bribery, extortion, money laundering, embezzlement, or graft through abuse of their status, nor gain unfair benefits by taking advantage of weaknesses and deficiencies.

4.2. CONFLICTS OF INTEREST

1. Suppliers shall make responsible decisions based on defined operational rules
2. The executives and employees of suppliers shall not promise, offer, authorize nor give anything that may lead to the gain of undue or improper benefits. This prohibition covers incurring damage to the company for the benefit of an executive or employee and promising individual benefits through a third party.

4.3. FAIR TRADE AND COMPETITION

1. Suppliers shall comply with the relevant anti-corruption laws and standards of the countries where they maintain business operations.
2. Suppliers shall not engage in activities that would disrupt fair competition through the pursuit of unfair transactions, such as abusing their market dominance or trading position.
3. Suppliers shall not engage in activities that unfairly restrict competition in the Marketplace with regards to the price, supply volume, area and terms of trade of goods or services.
4. Suppliers shall not improperly obtain information from competitors, partners, or other agencies, nor shall they use or disclose information obtained illicitly by the company or third parties.

4.4. COUNTERFEIT PARTS

1. Suppliers shall not manufacture nor use unauthorized raw materials and parts, nor use or sell counterfeit raw materials and parts.
2. Suppliers shall regularly confirm if counterfeit raw materials or parts are used or manufactured in their workplace, and if detected, shall promptly notify the government or clients.
3. Suppliers shall confirm that the materials and parts they manufacture are used and distributed to fulfill business objectives and in accordance with contractual obligations.

4.5. EXPORT CONTROLS

1. Suppliers shall comply with the domestic laws and international agreements applicable to export controls.
2. Suppliers shall not engage in business transactions with countries, regions, and individuals under export controls or economic sanctions.
3. Suppliers shall confirm whether they comply with the laws and agreements relating to export controls and economic sanctions, and if necessary, shall co-operate with SUNGWOO HITECH s.r.o. in its compliance activities.

4.6. INFORMATION PROTECTION

1. Suppliers shall not disclose trade secrets and information relating to their clients or business partners without consent, nor store or use the information they have obtained through performing business duties.
2. Suppliers shall respect the intellectual property rights of their clients and business partners, develop appropriate measures to protect intellectual property rights, and regularly confirm whether intellectual property rights are protected.
3. Suppliers shall collect and use personal information only within the scope of the original, established purpose and data retention period. Prior consent shall be obtained before modifying either the purpose or the retention period.

4.7. RESPONSIBLE SOURCING OF MATERIALS

1. Suppliers shall establish processes to verify the source regions and refineries of all minerals contained in their products, including conflict minerals¹ such as tin, tungsten, tantalum, to gold or minerals originating from conflict areas that directly or indirectly contribute to financing armed groups.
2. Suppliers shall, in accordance with the relevant processes, strive to verify social and environmental issues² including gross human rights abuses, violations of ethics, and negative environmental impacts in relation to the source regions and refineries of minerals and raw materials.
3. When primarily handling minerals and raw materials, suppliers shall strive to verify, internally and externally, that they are not engaged in human rights abuses, violations of ethics, nor producing negative environmental impacts in the processing of minerals and raw materials.
4. Supplier shall not abuse their position against small and medium enterprises.

1. These four minerals, which are extracted in African conflict areas (ten countries including DR Congo), may cause social issues such as human rights abuse and child labor. Exporting these resources may help fund civil wars or conflict, creating international concern.

2. In accordance with the US Securities and Exchange Commission enforcement ordinance in 2012, listed companies are obligated to report whether they use conflict minerals in their products. In 2015, the European Parliament made it mandatory that importers of minerals report, to the relevant national authorities, any issues related to the origin of the minerals imported.

5. ENVIRONMENT

5.1. ESTABLISHMENT OF AN ENVIRONMENTAL MANAGEMENT SYSTEM

1. Suppliers shall comply with the environmental laws and regulations of the countries where they maintain business operations and obtain all environmental permits and licenses necessary to maintain these operations.
2. Suppliers should operate an environmental management system³ to organize, plan, process and check outcomes to mitigate environmental impacts from business operations.

5.2. ENERGY CONSUMPTION AND GREENHOUSE GAS EMISSIONS

1. Suppliers shall develop programs to measure energy consumption and greenhouse gas emissions.
2. Suppliers should strive to reduce energy consumption and greenhouse gas emissions.
3. Suppliers shall prepare their GHG emissions report annually.

5.3. WATER RESOURCES MANAGEMENT

1. Suppliers shall develop water management programs to measure water resource consumption and wastewater discharge.
2. Suppliers should explore methods to minimize water resource consumption and maximize recycling. In addition, they shall manage water pollutant discharge in accordance with either legal standards or higher internal standards.

5.4. AIR POLLUTANT MANAGEMENT

1. Suppliers shall develop programs to measure air pollutant emissions.
2. Suppliers should minimize air pollutant emissions through appropriate means. Moreover, they shall comply with legal standards to manage air pollutant emissions, or develop and comply with higher internal standards.

5.5. WASTE MANAGEMENT

1. Suppliers shall develop programs to measure the amount of waste produced
2. Suppliers should minimize waste emissions produced through landfill and incineration. In addition, they shall strive to reuse and recycle waste, and recover used raw materials or parts that have been disposed of.
3. Considering the entire product life cycle, suppliers should strive to minimize residues from landfill or incineration that affect the environment.
4. Supplier should commit to circular economy and waste recycling.

5.6. CHEMICAL MANAGEMENT

1. Suppliers shall strive to ensure that chemicals handled during the process of business operations are safely managed during transportation, storage, use and disposal. Moreover, information that can be used to identify hazardous or harmful substances shall be displayed or otherwise disclosed.
2. Suppliers shall strive to verify⁴ whether the raw materials and parts they secure, sell and supply contain any substances that are harmful to the human body or the environment.

3. ISO 14001 and etc. (ISO 14001 is the international standard that specifies requirements for an effective environmental management system (EMS) defined by the International Organization for Standardization (ISO) and organizations can be certified by a third party that they follow the environmental management framework.
4. EU, Restriction of Hazardous Substances Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS) (2006) and etc.

6. LABOR / HUMAN RIGHTS

6.1. NON-DISCRIMINATION

1. Suppliers shall not engage in any form of discrimination based on gender, race, ethnicity, nationality, religion, disability, age, marital and family status, social identity and political affiliation in hiring and employment practices and access to training.
2. Suppliers shall not engage in any form of discrimination in providing wages and workers benefits.
3. Suppliers shall not include requirements that are not relevant to the job description when recruiting and hiring.

6.2. WAGES AND BENEFITS

1. Suppliers shall compensate workers in accordance with the applicable laws and regulations of the countries where they maintain business operations. Compensation shall be paid on a specified dates and workers shall be provided with a clear wage statement.
2. Suppliers shall ensure pleasant working conditions and strive to provide all employees with benefits to improve quality of life.
3. Suppliers shall provide mandatory training in accordance with the laws and regulations of the countries where they maintain business operations. Moreover, they shall strive to help all employees build their careers and strengthen their capabilities.

6.3. WORKING HOURS

1. Suppliers shall comply with all applicable laws, in relation to legally defined working and resting hours, of the countries where they maintain business operations.
2. Suppliers shall ensure that any hours worked beyond normal work hours are voluntary, and provide lawful compensation for overtime if employees work overtime under unavoidable circumstances.
3. Suppliers shall ensure that all employees receive at least one day off every week.

6.4. HUMANE TREATMENT

1. Suppliers shall respect the privacy of all employees and refrain from assigning unnecessary overtime tasks.
2. Suppliers shall notify employees in advance and obtain voluntary agreement when collecting their personal information.
3. Suppliers shall prohibit workplace harassment, which includes any act that may cause physical or mental distress, or that aggravates the working environment for other employees beyond the normal scope of their work. Appropriate changes and measures shall be implemented to reduce such harassment, such as disciplinary measures against offending workers and changing workplaces or placements upon request.

6.5. FREEDOM OF ASSOCIATION

1. Suppliers shall respect the right of employees to associate and bargain collectively, and allow them to form and manage lawful bargaining bodies.
2. Suppliers shall engage, with sincerity, in collective bargaining negotiations with the representatives of employees.
3. Suppliers shall allow individual employees to freely recommend negotiation terms if their representatives are absent.

6.6. CHILD LABOR

1. Suppliers shall ban any and all forms of child labor in principle, verifying the age of all employees and applicants through legitimate documents such as identification cards and birth certificates.
2. If hiring young workers, suppliers shall not employ them in high-risk jobs as defined by safety and health standards, and shall have appropriate measures in place to ensure educational opportunities.
3. Suppliers shall not receive goods and services from businesses that are engaged in child labor or that violate applicable laws, and shall take necessary action if such violations are confirmed.

6.7. FORCED LABOR (MODERN SLAVERY)

1. Suppliers shall comply with the labor rules of the countries where they maintain business operations, and prohibit all forms of forced or mandatory labor.
2. Suppliers shall not, for the purpose of restricting employees' personal activities, require employees to submit their identification cards or visas, nor shall they engage in activities such as assault, intimidation, or confinement for the purpose of forced labor.
3. Suppliers shall not receive goods or services from businesses that either restrict the mental and physical freedom of employees or that engage in forced labor due to debt relations, and shall take necessary measures if such violations are confirmed.

7. SAFETY AND HEALTH

7.1. OCCUPATIONAL HEALTH AND SAFETY MANAGEMENT SYSTEM

1. Suppliers shall comply with the health and safety laws and regulations of the countries where they maintain business operations, obtaining and maintaining all required permits and licenses.
2. Suppliers shall operate an occupational health and safety management system that includes organization, planning, procedures, and outcome analysis to prevent health and safety-related accidents.

7.2. SAFE MANAGEMENT OF MACHINES, EQUIPMENT AND TOOLS

1. Suppliers shall regularly inspect and evaluate hazardous or otherwise dangerous machine equipment, and tools in the workplace.
2. Suppliers shall install and manage protective interlocks and walls and emergency devices to prevent injury hazards to workers that may occur when operating hazardous or otherwise dangerous machines, equipment, and tools in the workplace.
3. Suppliers shall provide protective equipment to safeguard individual employees in the workplace. Protective equipment shall be easy and convenient to use, and properly maintained to ensure proper function.

7.3. EMERGENCY PREPAREDNESS

1. Suppliers shall have an established plan to respond to emergencies, including natural disasters, cluster infections, fire and other occupational accidents. Moreover, guidelines shall be in place that stipulate the reporting process, response procedures, and follow-up in case of emergency.
2. Suppliers shall implement worker training and drills emergencies in accordance with their own plans or guidelines, or the laws of the countries where they maintain business operations.
3. Suppliers shall have adequate exit routes and signs, fire detection and warning equipment, and fire prevention facilities in case of emergency, and ensure that the above all function properly.

7.4. ACCIDENT MANAGEMENT

1. Suppliers shall have programs to measure industrial accidents and illness.
2. Suppliers shall immediately cease operations if an industrial accident or severe disease outbreak occurs, and take necessary countermeasures including the evacuation of employees.
3. Suppliers shall investigate the causes of industrial accidents or illness and endeavor to provide relevant improvement plans to reduce their incidence.

7.5. SAFETY INSPECTION

1. Suppliers shall, for the purpose of determining if employees are exposed to risk factors, regularly conduct workplace safety assessments. Assessment results shall be disclosed to employees and suppliers shall improve machines, equipment, and tools in accordance with the results.
2. Suppliers shall provide employees with information on accident risks and factors based on a risk factor assessment. This information shall be disclosed in understandable language and displayed in accessible places.
3. Suppliers shall not employ pregnant women, young, old or weak workers in high-risk jobs and shall endeavor to improve the working environment to support socially vulnerable groups, including the disabled and immigrants.

7.6. HEALTH MANAGEMENT

1. Suppliers may provide employees with resting areas, toilet facilities and eating facilities, and shall strive to maintain hygiene and cleanliness in such facilities if they are provided.
2. Suppliers may provide employees with worker dormitories, which shall be equipped with safety signs, lighting and heating and cooling systems. Moreover, dormitories shall have appropriate facilities to limit access by unauthorized personnel.
3. Suppliers shall regularly implement general or special medical examinations for employees, in accordance with the health laws of the countries where they maintain business operations. Moreover, suppliers shall take necessary measures such as changing workplaces, converting shifts, and reducing work hours to allow employees to attend medical examinations.

8. MANAGEMENT SYSTEMS

8.1. COMPANY STATEMENT DISCLOSURE

1. Suppliers shall disclose this Supplier Code of Conduct, or their commitment to fulfilling corporate social responsibilities, internally and externally.
2. Suppliers shall share this Supplier Code of Conduct, or their commitment to fulfilling corporate social responsibilities, through internal channels, such as the New Year's address by executives, internal guidelines, or the in-house bulletin board. Moreover, they are recommended to disclose them via websites, management reports and publications.

8.2. HEALTH MANAGEMENT

1. Suppliers shall appoint a supervisor who is responsible for corporate social and environmental sustainability activities.
2. Suppliers shall appoint a person who manages the planning and implementation of corporate social and environmental sustainability activities (social responsibility activities).

8.3. RISK ASSESSMENT

1. Suppliers shall endeavor to identify ethical, environmental, labor/human rights, safety/health risks associated with their business operations.
2. Suppliers shall develop and implement measures to mitigate risks if significant risks are discovered.

8.4. TRAINING AND COMMUNICATION

1. Suppliers shall train their employees in the provisions of this Supplier Code of Conduct, as well as the matters governed by the relevant laws and policies.
2. Suppliers shall share implementation plans and progress concerning the matters governed by this Supplier Code of Conduct.

8.5. INFORMATION MANAGEMENT

1. Suppliers shall accurately record and manage information concerning ethical, environmental, labor/human rights, and safety/health risks.
2. Suppliers shall strive to disclose information in a transparent matter when local laws, industrial associations and important clients with contractual obligations request such information, unless the disclosure is prohibited by law.

8.6. GRIEVANCE MECHANISMS FOR ADVICE AND CONCERN ABOUT ETHICS (WHISTLEBLOWING)

1. Suppliers shall operate a grievance mechanism allowing employees who confirm or identify violations of ethics, environmental, labor/human rights, safety/health laws and regulations to seek advice and raise concerns. These mechanisms shall allow employees to report infringements of their individual rights or interests.
2. Suppliers shall protect employees who report ethical concerns relating to unreasonable actions such as layoffs, threats, retaliation, and mockery. Employees who report such concerns shall have their identity protected.

8.7. MANAGEMENT OF TRADE PARTNERS (SUBCONTRACTORS)

1. Suppliers shall recommend that subcontractors with contractual obligations in planning, designing, selling and manufacturing goods and services shall manage ethical, environmental, labor/human rights, safety/health factors.
2. Suppliers shall strive to recommend that their subcontractors improve violations or risks concerning ethical, environmental, labor/human rights, and safety/health laws and provisions when they identify such violations or recognize such risks.

8.8. COMPLIANCE OF SUPPLIER CODE OF CONDUCT

1. Suppliers shall provide evidence of compliance with this Supplier Code of Conduct during regular written assessments or on-site visits carried out by SUNGWOO HITECH s.r.o. or designated third parties.
2. Suppliers shall write and manage appropriate documents⁵ to prove their compliance with this Supplier Code of Conduct. Such documents shall be based on facts and reflect business operations.
3. Suppliers shall strive to establish and implement plans to swiftly address deficiencies and violations of compliance with this Supplier Code of Conduct, as identified by written assessments or on-site visits.

5. An appropriate document refers to the 'safety and health guidelines based on the Occupational Safety and Health Act, Article 225 (Writing of Safety and Health Guidelines), 'record of occurrence of industrial accidents or disease based on and Article 10 (Publication of Number, etc. of Industrial Accident Occurrences at Place of Business), 'rules of employment' based on the Labor Standards Act, Article 93 (Preparation and Reporting of Rules of Employment), matters such as the amount of wages based on the Labor Standards Act, Article 48 (Wage Ledger), in addition to agreements on ethics code, emergency guidelines, working hours record, workplace inspection outcomes, and other data related to requirements under this Supplier Code of Conduct or that can be used as basis for assessing compliance.

 - d) Not relevant
- 11) Does the company have a procedure to assess and address the environmental, social and governance impact of its surroundings onto its operations?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 12) Does the company take steps to ensure that company security arrangements are in accordance with international human rights principles for law enforcement and the use of force?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 13) Does the company take steps to prevent risks to human rights or health and safety arising from product defects or improper use or misuse of company products?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant

- 14) Does the company seek to avoid involvement in human rights abuses owing to government or societal practices in its country or countries of operation?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 15) Does the company promote international human rights standards in its interactions with suppliers and business partners?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 16) Does the company recognize the rights of its workers to freedom of association and to bargain collectively?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 17) If independent trade unions are either discouraged or not allowed in the area of operation, does the company enable employees to gather independently to discuss work-related problems?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 18) Does the company take all necessary measures to ensure that it does not participate in any form of forced or bonded labor?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 19) Does the company comply with local minimum age standards?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant

- 20) Does the company ensure that employment-related decisions are based only on relevant and objective criteria?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 21) Does the company promote international and national labor standards in its interactions with suppliers and business partners?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 22) Does the company comply with all relevant environmental legislation?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 23) Does the company consider carbon neutrality as a target?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 24) Does the company have a commitment towards carbon neutrality?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 25) Does the company support circular economy and waste recycling?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 26) Does the company manage environmental issues to ensure appropriate and continuous improvements?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant

27) Does the company assess and address environmental impacts of its operations before these operations start?

- a) Yes
- b) No
- c) Implementation planned
- d) Not relevant

28) Does the company have emergency procedures in place to effectively prevent and address industrial accidents affecting the environment and human health?

- a) Yes
- b) No
- c) Implementation planned
- d) Not relevant

- 29) Does the company promote international environmental standards in its interactions with suppliers and business partners?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 30) Does the company support a precautionary approach to environmental challenges?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 31) Does the company take measures to reduce energy consumption and emissions of greenhouse gases?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 32) Does the company take measures to reduce water consumption?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 33) Does the company prevent, reduce and treat waste water discharges?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 34) Does the company take measures to reduce the production of waste and ensure responsible waste management?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 35) Does the company prevent, reduce and treat emissions of solid air pollutants?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant

- 36) Does the company prevent and minimize impacts on the surrounding environment from noise, odor, light and vibrations?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 37) Does the company minimize the use of chemicals and other dangerous substances and ensure safe handling and storage?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 38) Does the company remedy soil and water contamination at the site and the surroundings?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 39) Does the company prevent, minimize and remedy significant impacts on biodiversity?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 40) Does the company ensure that natural resources are used in a sustainable manner?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 41) Does the company encourage the development and diffusion of environmentally friendly technologies?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 42) Does the company take a clear stand against corruption?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 43) Does the company evaluate and assess the risk of corruption when doing business?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant

- 44) Does the company ensure that employees know the company's anti-corruption commitment and that relevant persons are properly trained?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 45) Does the company forbid corrupt behavior and monitor its anti-corruption initiatives?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
- 46) Do the company's internal procedures support its anti-corruption commitment?**
- a) Yes
 - b) No
 - c) Implementation planned
 - d) Not relevant
